

A top-down view of a modern office desk. The desk is light-colored with a white power outlet. A long, orange, textured object, possibly a speaker or a decorative panel, runs diagonally across the desk. Two laptops are open: one silver and one dark grey. A pen holder with blue pens and sticky notes is in the top right. A person's hand with a watch is on the trackpad of the dark grey laptop in the bottom right.

SCENE

# STYLE AND PRODUCTIVITY IN THE OPEN PLAN WORKSPACE

Scene is a benching and private office furniture system designed for the modern work community. Height adjustable worksurfaces and unique storage applications are among the many features that align Scene with the needs of today's dynamic work environments.

Scene looks the part too, with a range of features, from open frame gables to kickstand support legs,

characterized by an envy-inducing minimal design aesthetic confident enough to call anywhere home.

Flag storage provides an elegant solution to lateral privacy in benching. Height adjustable worksurfaces, pop-up power grommets and privacy screens with secondary organizational features transform 'a workspace' into 'my workspace'. It fits the worker, not the other way around.
